

Scribbler Robot and IPRE Fluke Buy-back offer

Thanks for using the Parallax Scribbler or the IPRE Fluke as part of your computer science education. In order to reduce costs for you, and for other students, we are pleased to "buy back" your old equipment so we can resell it at low cost to other students. We will test your used items then send you a \$25 gift card for each working part (robot + fluke = 2 x \$25 cards). Please follow the steps below so we can compensate you quickly.

Step 1

Tell us where to send your gift card(s)

Enter your name and address in the box below. Please write legibly; if the post office can't read your writing, your gift card may not reach you. Your entire address must fit within the box.

Step 2

Choose your gift card(s)

We are offering \$25 for each working Fluke, and \$25 for each working Scribbler robot. We will provide one or more gift cards to you in \$25 denominations according to the number of working items you return. If you are returning two or more items, you will receive more than one card, and you may select more than one retailer. Please indicate which retailer(s) you would like card(s) from.

Enter the number of \$25 WalMart gift cards you'd like

Enter the number of \$25 iTunes gift cards you'd like

Enter the number of \$25 Barnes & Noble gift cards you'd like

Step 3

Pack and ship us your stuff

Include this form in the box. Please package your robot(s) and fluke(s) carefully so that they will not be damaged in shipping. Then ship to:

Daniel Walker
85 5th Street, NW Suite 205
Atlanta Georgia, 30308

We will inspect your robot or Fluke, then expedite your gift cards to you. Please allow 2 to 4 weeks for processing.
